PREFACE	8
INTRODUCTION	15
How does the perception survey approach stack up against other methods of measurement?	16
Incident statistics.....	16
Safety management system audits.....	18
What do the survey experts say?	23
How does the survey approach explained in this book differ from others?.....	26
SAFETY PERCEPTION SURVEYS	31
Why a safety perception survey?	33
Why not conduct a safety perception survey?	35
Safety hardware versus safety software.....	36
Perception is reality.....	39
Perception surveys and behaviour-based safety	42
Summary	44
STEP 1 – DEVELOP THE SURVEY	47
Determining the survey reporting parameters	52
Validity and Confidentiality	55
What scale should you use?	57
What is a good score?	59
Framing questions or survey statements.....	62
Administering the survey to two or more groups.....	69
Ensuring that your questions or statements are valid	71
Additional comments.....	72
Benchmarking.....	72
How long should the survey be?	74
STEP 2 – SELECT A SAMPLE	75
How many respondents should participate?	77
Selecting a random sample of respondents	80
STEP 3 – TEST	83
Purposes of a pre-test.....	85
STEP 4 – COMMUNICATE	89
STEP 5 – ADMINISTER	95
Mailing	97
Telephoning	98
Interviewing.....	98
Meeting.....	100
Electronically (E-mail, internet or intranet).....	102

How can you increase the response rate?	102
Some additional points to consider.....	103
STEP 6 – ANALYZE.....	105
Examples	108
Scores and comments.....	110
Category.....	112
Standard deviation.....	113
Benchmarking.....	114
Some additional points to consider.....	115
Reporting	120
Recommendations/opportunities for improvement	121
Pete’s Pipeline Inc. analysis exercise.....	124
STEP 7 – VALIDATE.....	165
Validating the findings and the survey.....	168
STEP 8 – FEEDBACK.....	169
STEP 9 – RE-EVALUATE	173
CONCLUSION.....	177
